Independent Auditors' Report

To the Board of Directors of Inventec Corporation:

Opinion

We have audited the consolidated financial statements of Inventec Corporation and its subsidiaries (“the Group”), which comprise the consolidated balance sheets as of December 31, 2023 and 2022, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended December 31, 2023 and 2022 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards (“IFRSs”), International Accounting Standards (“IASs”), Interpretations developed by the International Financial Reporting Interpretations Committee (“IFRIC”) or the former Standing Interpretations Committee (“SIC”) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Inventory Valuation

Please refer to Notes (4)(h), (5) and (6)(e) for accounting policies, significant accounting assumptions and judgments, major sources of estimation uncertainty and related disclosure information for inventory, respectively.

Description of the key audit matter:

The Group's materials may be obsolescence or slow-moving due to the risk of price decline in inventory, the material prepared for designing products and forecast orders may be canceled or changed, or changed on components and quantities. Therefore, the valuation of inventories has been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included assessing the appropriateness of inventories valuation policies; ensuring the process of inventory valuation is in conformity with the accounting policies; inspecting the inventory aging report; recalculating estimation of inventory valuation based on the Group's policies.

2. Revenue recognition

Please refer to Notes (4)(p) and (6)(u) for accounting policies and related disclosure information for revenue recognition, respectively.

Description of the key audit matter:

To fulfill the delivery requirements of certain products, the Group has established several hubs to meet customer demand. The Group recognizes sales revenue when the customers pick up the products (transfer of control over products), primarily relying on statements or information provided by hub custodians. Since the hubs are located around the world with numerous custodians and the formats provided by custodians vary, the process of revenue recognition typically involves manual procedures. This may lead to inappropriate timing of sales revenue recognition or discrepancies between the physical inventory and accounting records.

As there are numerous transactions from hubs, and the transactions amount prior to and after the balance sheet date are significant to the financial statements, the cut-off of hub sales revenue has been identified as one of the key audit matters.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures, including conducting a cut-off test for hub sales revenue for a specific period prior to and after the balance sheet date, and inspecting relevant documents to assess the reasonableness of management's timing of sales revenue recognition from hubs. For shipments during that period, we sampled and inspected supporting document provided by hub custodians, checked inventory movement records, and verified the transfer of cost of goods sold had been recorded in the appropriate period. For inventory quantities held at hubs at the end of the period, we randomly performed confirmation procedures or conducted physical counts to reconcile with accounting records.

Other Matter

Inventec Corporation has additionally prepared its parent company only financial statements as of and for the years ended December 31, 2023 and 2022, on which we have issued an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs, IASs, IFRIC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Rou-Lan Kuo and Ying-Ju Chen.

INVENTEC CORPORATION AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the years ended December 31, 2023 and 2022
(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company History

Inventec Corporation (the “Company”) was organized in 1975. The Company engages primarily in the manufacturing, processing and trading of computers and related products. The Company’s registered office address is located at No.66 Hougang Street, Shilin District, Taipei City, Taiwan, R.O.C. The shares of the Company became officially listed and traded on the Taiwan Stock Exchange in November 1996.

The Company and its subsidiaries (together referred to as the “Group” and individually as “Group entities”) primarily is involved in the production and sales of computer products and intelligent devices. Please refer to Note (4)(c) for details.

(2) Financial Statements Authorization Date and Authorization Process

These consolidated financial statements were authorized for issue by the Board of Directors on March 12, 2024.

(3) New Standards, Amendments and Interpretations Adopted:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2023:

- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”
- Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

The Group has initially adopted the new amendment, which do not have a significant impact on its consolidated financial statements, from May 23, 2023:

- Amendments to IAS 12 “International Tax Reform—Pillar Two Model Rules”

- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2024, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”
- Amendments to IAS 1 “Non-current Liabilities with Covenants”
- Amendments to IAS 7 and IFRS 7 “Supplier Finance Arrangements”
- Amendments to IFRS 16 “Lease Liability in a Sale and Leaseback”

INVENTEC CORPORATION AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)
For the years ended December 31, 2023 and 2022
(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Group does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- Amendments to IFRS 17 “Initial Application of IFRS 17 and IFRS 9 – Comparative Information”
- Amendments to IAS21 “Lack of Exchangeability”

(4) Summary of material policies

The accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of, the English and Chinese language consolidated financial statements, the Chinese version shall prevail.

The material accounting policies presented in the consolidated financial statements are summarized below. Except for the explanation of Note (3), the following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

- (a) Statement of compliance

These consolidated financial statement statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C..

- (b) Basis of preparation

The consolidated entity, Inventec Solar Energy Corporation, resolved at its Board meeting on December 1, 2021, to file the bankruptcy to the court. The financial statements were prepared on the assumption that the entity was unable to continue as a going concern and did not adopt a going concern accounting basis.

1. Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

- 1) Financial instruments at fair value through profit or loss are measured at fair value;
- 2) Financial assets at fair value through other comprehensive income are measured at fair value;
- 3) Cash-settled share-based payment liabilities are measured at fair value;

4) The defined benefit liabilities (assets) are measured at fair value of the plan assets less the present value of the defined benefit obligation, limited as explained in Note (4)(q).

2. Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollar, which is the Company's functional currency. All financial information presented in New Taiwan Dollar has been rounded to the nearest thousand.

(c) Basis of consolidation

1. Principle of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intra group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances. Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

When the Group loses control over a subsidiary, it derecognizes the assets (including any goodwill) and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any interest retained in the former subsidiary is measured at fair value when control is lost, with the resulting gain or loss being recognized in profit or loss. The Group recognizes as gain or loss in profit or loss the difference between (i) the fair value of the consideration received as well as any investment retained in the former subsidiary at its fair value at the date when control is lost; and (ii) the assets (including any goodwill), liabilities of the subsidiary as well as any related non-controlling interests as their carrying amounts at the date when control is lost, as gain or loss in profit or loss. When the Group loses control of its subsidiary, it accounts for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if it had directly disposed of the related assets or liabilities.

(d) Foreign currencies

1. Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Nonmonetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for an investment in equity securities designed as at fair value through other comprehensive income, which is recognized in other comprehensive income.

2. Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

1. It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
2. It is held primarily for the purpose of trading;

3. It is expected to be realized within twelve months after the reporting period; or
4. The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

An entity shall classify a liability as current when:

1. It is expected to be settled in the normal operating cycle;
2. It is held primarily for the purpose of trading;
3. It is due to be settled within twelve months after the reporting period; or
4. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equipments are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(g) Financial instruments

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivables without a significant financing component is initially measured at the transaction price.

1. Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of next reporting period following the change in the business model.

INVENTEC CORPORATION AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

Some trade receivables deriving from the collection of contractual cash flows and sales made by the Group are measured at FVOCI, and recognized as 'trade receivables' line item.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Group's right to receive payment is established.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above (e.g. financial assets held for trading and those that are managed and whose performance is evaluated on fair value basis) are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, leases receivable, guarantee deposit paid and other financial assets), debt investments measured at FVOCI and contract assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Group considers a financial asset to be in default when the financial asset is more than year past due or the debtor is unlikely to pay its credit obligations to the Group in full.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

ECL are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECL are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial assets is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 1 year past due;

- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charge to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off either partially or in full to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

5) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

2. Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

4) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

5) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Investment in associates

Associates are those entities in which the Group has significant influence, but not control or jointly control, over the financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of those associates, after adjustments to align the accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Gains and losses resulting from the transactions between the Group and an associate are recognized only to the extent of unrelated Group's interest in the associate.

When the Group's share of losses of an associate equals or exceeds its interest in associates, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group discontinues the use of equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing and the carrying amount of the investment at the date the equity method that was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the investee had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (or retained earnings) (as a reclassification adjustment) when the equity method is discontinued. If the Group's ownership interest in an associate or a joint venture is reduced, while the entity continues to apply the equity method, the Group reclassifies the proportion of the gain or loss, that had previously been recognized in other comprehensive income relating to that reduction in ownership interest, to profit or loss.

If an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the Group shall continue to apply the equity method without remeasuring the retained interest.

When the Group subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Group's proportionate interest in the net assets of the associate. The Group records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus. The aforesaid adjustment should first be adjusted under additional paid-in capital. If the additional paid-in capital resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Group's ownership interest is reduced due to the additional subscription to the shares of associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate will be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

(j) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services, or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

(k) Property, plant, and equipment

1. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

2. Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

3. Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straightline basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

Buildings	10 ~ 50years
Machinery	2 ~ 11years
Transportation equipment	3 ~ 6years
Furniture and office facilities	2 ~ 14years
Power equipment	2 ~ 16years
Renovation and leasehold improvements	2 ~ 20years
Miscellaneous equipment	2 ~ 16years
Leasehold improvements	10years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

4.Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the use of the property changes from owner occupied to investment property.

(l) Leases

At inception of a contract, the Group assesses whether a contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

1.As a leasee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- 1) Fixed payments, including in-substance fixed payment;
- 2) Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- 3) Amounts expected to be payable under a residual value guarantee; and
- 4) Payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- 1) there is a change in future lease payments arising from the change in an index or rate; or
- 2) there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- 3) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset; or

- 4) there is a change of its assessment on whether it will exercise an extension or termination option; or
- 5) there is any lease modifications.

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases of housing, transportation, and other equipment that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a practical expedient, the Group elects not to assess whether all rent concessions that meets all the following conditions are lease modifications or not:

- 1) the rent concessions occurring as a direct consequence of the COVID-19 pandemic;
- 2) the change in lease payments that resulted in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- 3) any reduction in lease payments that affects only those payments originally due on, or before, June 30, 2022; and
- 4) there is no substantive change in other terms and conditions of the lease.

In accordance with the practical expedient, the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

2.As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

(m) Intangible assets

1. Recognition and measurement

Goodwill arising on the acquisition of subsidiaries is measured at cost, less accumulated impairment losses.

Expenditure on research activities is recognized in profit or loss as incurred.

Development expenditure is capitalized only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to, and has sufficient resources to, complete development and to use or sell the asset. Otherwise, it is recognized in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost, less accumulated amortization and any accumulated impairment losses.

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

2. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

3. Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

- | | |
|---------------------------|------------------|
| 1) Trademark rights | 10 years |
| 2) Computer software cost | 1 years~ 6 years |

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(n) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value-in-use and its fair value less costs to sell. Value-in-use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(o) Provisions

A provision is recognized if, as a result of a past event, the Group has a present obligation that can be estimated reliably, and it is probably that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

1. Warranties

A provision for warranties is recognized when the underlying products or services are sold, based on historical warranty data and a weighting of all possible outcomes against their associated probabilities.

2. Onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

3. The Group has periodically assessed the obligation of all litigation and claims and relative legal costs based on historical experience. If settling present obligation is probable and the amount can be reasonably estimated, the Group recognizes a provision for legal claims.

(p) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

1. Sale of goods

The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

2. Services

The Group recognizes revenue when the performance obligation is completed.

3. Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the group does not adjust any of the transaction prices for the time value of money.

(q) Employee benefits

1. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

2. Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

3. Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

4. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(r) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

Grant date of a share-based payment award is the date which the board of directors and the employees have made an agreement on the price and number of the new award.

(s) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities at the reporting date and their respective tax bases. Deferred taxes are recognized except for the following:

1. temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and at the time of the transaction (i) affects neither accounting nor taxable profits (losses) and (ii) does not give rise to equal taxable and deductible temporary differences;
2. temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
3. taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date, and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

1. the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
2. the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(t) Earnings per share

The Group disclose the Company's basic and diluted earnings per share attributable to ordinary equity holders of the Company. The calculation of basic earnings per share is based on the profit attributable to the ordinary shareholders of the Company divided by the weighted-average number of ordinary shares outstanding. The calculation of diluted earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by the weighted-average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares, such as employee compensation.

(u) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. Each operating segment consists of standalone financial information.

(5) Significant Accounting Assumptions and Judgements, and Major Sources of Estimation Uncertainty

The preparation of the consolidated financial statements in conformity with the Regulations and the IFRSs endorsed by the FSC requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the next period.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows.

(a) Valuation of inventories

As inventories are stated at the lower of cost or net realizable value, the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions as to future demand within a specific time horizon. Due to the rapid industrial transformation, there may be significant changes in the net realizable value of inventories. Refer to Note (6)(e) for further description of the valuation of inventories.

2. Financial assets at fair value through other comprehensive income

	December 31, 2023	December 31, 2022
Equity investments at fair value through other comprehensive income		
Stocks of listed companies	\$ 783,756	723,062
Stocks of unlisted companies	5,160,038	3,928,007
Total	\$ 5,943,794	4,651,069

1) Equity investments at fair value through other comprehensive income

The Group designated the investments shown above as equity securities at fair value through other comprehensive income because these equity securities represent those investments that the Group intends to hold for long-term strategic purposes.

For strategic purposes, the Group has sold its equity investments at fair value through other comprehensive income at the amount of \$30,188, resulting in the Group to reclassify the loss of \$3,662 from other equity to retained earnings.

2) For credit risk and market risk, please refer to Note (6)(x).

3) As of December 31, 2023, the aforesaid financial assets were not pledged as collateral.

(c) Notes and accounts receivable

	December 31, 2023	December 31, 2022
Accounts receivable- non-related parties	\$ 92,280,692	88,292,622
Accounts receivable- related parties	71	1,285,573
Less: Loss allowance	(73,960)	(70,992)
	\$ 92,206,803	89,507,203

The Group assessed that some accounts receivable were derived from the collection of contractual cash flows and sales. Therefore, those accounts receivable were measured at fair value through other comprehensive income. As of December 31, 2023 and 2022, the amounts of accounts receivable measured at fair value through other comprehensive income were \$8,386,574 and \$5,107,315, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and accounts receivable have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, including macroeconomic and relevant industry information. The loss allowance was determined as follows:

	December 31, 2023		
	Gross carrying amount	Weighted-average loss rate	Loss allowance
Current	\$ 88,872,601	0%~0.5%	69,995
1 to 180 days past due	3,408,070	0.04%~10%	3,965
More than 180 days past due	92	0.04%~100%	-
	<u>\$ 92,280,763</u>		<u>73,960</u>

As of February 27, 2024, the amount received in subsequent period by the Group was \$60,409,967.

	December 31, 2022		
	Gross carrying amount	Weighted-average loss rate	Loss allowance
Current	\$ 86,579,587	0%~0.5%	66,507
1 to 180 days past due	2,997,610	0.04%~10%	4,481
More than 180 days past due	998	0.04%~100%	4
	<u>\$ 89,578,195</u>		<u>70,992</u>

The movements in the allowance for notes and accounts receivable were as follows:

	For the years ended December 31,	
	2023	2022
Balance at January 1	\$ 70,992	104,130
Impairment losses recognized (reversed)	3,099	(7,369)
Amounts written off	-	(26,588)
Foreign exchange (gains) losses	(131)	819
Balance at December 31	<u>\$ 73,960</u>	<u>70,992</u>

The allowance for impairment account is used to record expected credit losses. If the Group believes that it may not be able to collect the receivables. The accumulated impairment was used to offset the receivables when it is certain they are unrecoverable, after related legal actions were taken by the Group.

As of December 31, 2023 and 2022, none of the receivables above were pledged as collateral for loans and borrowings.

INVENTEC CORPORATION AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

For the years ended December 31, 2023 and 2022, the write-up (write-down) of inventories amounted to \$83,555 and \$(619,750), respectively. The write down of inventory valuation is due to obsolescence or out of use, which causes the net realizable value of inventory to be lower than the cost and is recognized as operating costs. In addition, when the factor causing the net realizable value of inventory to be lower than the cost is disappeared due to scrapping or disposal, the increase in the net realized value is recognized as a deduction in operating costs. For the years ended December 31, 2023 and 2022, idle capacity loss amounted to \$5,135 and \$73,252, respectively.

As of December 31, 2023, and December 31, 2022, the aforesaid inventories were not pledged as collateral.

(f) Investments accounted for using equity method

The components of investments accounted for using equity method at the reporting date were as follows:

	December 31, 2023	December 31, 2022
Associates	<u>\$ 431,681</u>	<u>443,563</u>

1. Associate

The Group's financial information for investments in individually insignificant associates accounted for using equity method at the reporting date was as follows. These financial information are included in the consolidated financial statements.

	December 31, 2023	December 31, 2022
Individually insignificant associates	<u>\$ 431,681</u>	<u>443,563</u>

As of December 31, 2023 and 2022, the Group's investments under equity method were not pledged as collateral.

2. Judgment on existence of substantial control over investee

The Group holds 37.528% of the outstanding voting shares of Inventec Besta Co., Ltd. (Besta) and obtains only one seat among all seven board directors. Therefore, the Group does not have existing rights and the current ability to direct the investee's relevant activities, thus, the Group does not have control over Besta.

INVENTEC CORPORATION AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

The amortization of intangible assets and impairment losses are respectively included in the statements of comprehensive income:

	For the years ended December 31,	
	2023	2022
Operating costs	\$ 1,590	1,042
Operating expenses	258,350	192,098
Total	\$ 259,940	193,140

The Group's goodwill has been tested for impairment at the end of the annual reporting period and the recoverable amount is determined based on the value-in-use. The value-in-use was calculated based on the cash flow forecast from the financial budgets covering the next five-year period, and the Group used the annual discount rate of 8.82% in its test of impairment as of December 31, 2023 to reflect the relevant specific risk in the cash-generating unit.

For the year ended December 31, 2023, the Group assessed goodwill impairment and recognized an impairment loss of \$398,885 related to a subsidiary since the operating result of this cash generating unit was not as expected, and the recoverable amount of goodwill was assessed to be lower than the carrying amount. Such impairment loss was recognized in non-operating income and expenses. For the year ended December 31, 2022, the Group did not recognize any impairment loss for goodwill.

As of December 31, 2023 and 2022, none of the aforesaid intangible assets were pledged as collateral.

(k) Other current assets and other non-current assets

The other current assets-others and other non-current assets of the Group were as follows:

	December 31,	December 31,
	2023	2022
Refundable deposits	\$ 191,045	295,154
Current asset recognized as right to recover products from customers	370,385	300,998
Prepayments to suppliers	174,769	259,431
Restricted assets and other financial assets	5,678,208	1,679,518
Payments on behalf of others	998,867	373,540
Deferred tax assets	2,450,970	1,993,469
Others	3,927,031	3,369,665
	\$ 13,791,275	8,271,775

The Group determines the substance of the transaction in terms of sales and production, as well as production of the same target, to complete its sales contract. The Group has the nature of an agent, and so the transaction is reflected as the net amount after the purchases and sales are written off. The unused inventory of purchases is listed as payments on behalf of others.

1. Please refer to Note (8) for details of the related assets pledged as collateral.

2. Important borrowing restrictions

The Company entered into a syndicated credit agreement with different financial institutions. Under the agreement, the Company shall adhere to certain financial provisions such as current ratios, leverage ratios, interest coverage ratios and tangible net worth in its consolidated annual and semi-annual financial report on the balance sheet date. Otherwise, the borrowings will be considered due and payable immediately. As of December 31, 2023 and 2022, the Company was in compliance with the above financial covenants.

3. Others

Due to insolvency, Inventec Solar Energy Corporation resolved at its Board meeting on December 1, 2021, to file for bankruptcy to the court. When the court grants the bankruptcy ruling, Inventec Solar Energy Corporation will start the legal procedures of bankruptcy. After the bank allocated the remaining balance offset by the related expenses, interests, and principles, Inventec Solar Energy Corporation recognized the borrowing as short-term and long-term loans within a year or a business cycle since the company borrowings have defaulted.

Inventec Solar Energy Corporation, resolved at its Board meeting on April 8, 2022, to sign the statement of settlement with seven creditor banks on April 11, 2022, and to sign an amendment agreement on April 13, 2022. Inventec Solar Energy Corporation borrowed money from a third party to pay for settlement to seven creditor banks. Furthermore, the creditor banks agreed to forgive the debts, and to waive all rights to the income of Inventec Solar Energy Corporation based on the credit contracts. The creditor banks have withdrawn the legal proceedings against Inventec Solar Energy Corporation and returned all the promissory notes issued under the credit contracts. However, since the conditions for derecognizing financial liabilities and recognizing the benefits of debt settlement have not yet been fully met, a balance of \$1,109,367 is still accounted as short-term borrowings and current portion of long-term borrowings.

1. Real estate leases

The Group leases land and buildings for its office space and plants. The leases of office space typically run for 2 to 13 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

Some leases of equipment contain extension or cancellation options exercisable by the Group. These leases are negotiated and monitored by local management, and accordingly, contain a wide range of different terms and conditions. The extension options held are exercisable only by the Group and not by the lessors. When the lessee is not reasonably certain to use an optional extended lease term, payments associated with the optional period will not be included within lease liabilities.

2. Other leases

The Group leases vehicles and other equipment, with lease terms of two to five years. In some cases, the Group has options to purchase the assets at the end of the contract term; in other cases, it guarantees the residual value of the leased assets at the end of the contract term.

The Group also leases dormitory, vehicles and other equipment with contract terms of one to two years. These leases are short-term and leases of low-value items. The Group has elected not to recognize right-of-use assets and lease liabilities for these leases.

(o) Operating Leases

The Group leased investment property and certain equipments. Since the substantially all of the risks and rewards incidental to underlying assets are not transferred, the lease is an operating lease. Refer to Note (6)(i) for further description of the investment property.

A maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date, is as follows:

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

The Group makes defined benefit plan contributions to the pension fund account at Bank of Taiwan that provides pensions for employees upon retirement. The plans (covered by the Labor Standards Law) entitle a retired employee to receive an annual payment based on years of service and average salary for the six months prior to retirement. As of December 31, 2023 and 2022, the defined benefit plans amounted to \$209,782 and \$179,419, respectively, which were accounted as other current assets.

1) Composition of plan assets

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued two-year time deposits with interest rates offered by local banks.

The Group's pension reserve account in Bank of Taiwan amounted to \$1,405,780 at the end of December 31, 2023. For information on the utilization of the labor pension fund assets including the assets allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

INVENTEC CORPORATION AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

For the years ended December 31, 2023 and 2022

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

The expected allocation payment made by the Group to the defined benefit plans for the one year period after the reporting date was \$93,276.

The weighted-average duration of the defined benefit obligation is 7.3~10.86 years.

6) Sensitivity analysis

If the actuarial assumptions had changed, the impact on the present value of the defined benefit obligation for 2023 and 2022 shall be as follows:

	Influences of defined benefit obligations	
	Increased 0.25%-0.50%	Decreased 0.25%-0.50%
December 31, 2023		
Discount rate	(34,714)	35,907
Future salary increasing rate	35,017	(34,026)
December 31, 2022		
Discount rate	(36,267)	37,512
Future salary increasing rate	36,525	(35,495)

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2023 and 2022.

2. Defined contribution plans

In accordance with the provisions of the Labor Pension Act, the Group's domestic entities contribute an amount equal to 6% of the employee's monthly wages to the Labor Pension personal account with the Bureau of the Labor Insurance.

The pension costs incurred from the contributions to the to the Bureau of the Labour Insurance amounted to \$299,775 and \$267,556 for the years ended December 31, 2023 and 2022, respectively.

The pension expenses contributed by the foreign entities following the local regulations amounted to \$1,022,859 and \$880,170 for the years ended December 31, 2023 and 2022, respectively.

2. Deferred Tax Assets and Liabilities

1) Unrecognized Deferred Tax Assets

Deferred tax assets that have not been recognized in respect of the following items:

	December 31, 2023	December 31, 2022
Tax effect of deductible Temporary Differences	\$ 961,744	1,333,050
The carryforward of unused tax losses	<u>1,953,925</u>	<u>1,496,408</u>
	<u>\$ 2,915,669</u>	<u>2,829,458</u>

The carryforward of unused tax credits were determined in accordance with the rules established by each taxation authorities, and can be applied to offset against profit and income tax in the future respectively. The deferred tax assets have not been recognized in respect of the aforementioned items because they are not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

The Subsidiaries located in China, where the income tax rate is 25%, in accordance with the rules for the implementation of the Income Tax Law of the People's Republic of China for enterprises with Foreign Investment and Foreign Enterprises, was entitled to the preferential treatment for advanced technology industries with respect to reduction of or exemption from income tax. Under such tax law, commencing with the first profit-making year is exempted from income tax in the first and second profitable year and is entitled to a 50% reduction from the third to fifth year.

The Group invested in the companies which were incorporated in the Cayman Islands. The earnings of these entities are not taxable by the local government in their respective jurisdictions. Other foreign subsidiaries are taxed in accordance with the Income Tax Law of their respective jurisdiction.

As of December 31, 2023 and 2022, the Group estimated that the part of the temporary differences have slight chance to realize in the visible future, so they were not recognized as deferred tax assets.

Each company is taxed in accordance with the income tax law of their respective jurisdiction. Unused operating loss carry-forwards can be applied to offset against profit in the future after being examined by the Tax Authority. As of December 31, 2023, the company that have loss carry forwards which can be used to offset profit were as follow. Among the taxable losses, \$3,813 were recognized as deferred tax assets.

As of December 31, 2023, the Group did not recognized its prior years' loss carry-forwards as deferred tax assets, whose expiry years were as follows:

	Unused loss	Expiry year
The carryforward of unused losses	\$ <u><u>4,557,153</u></u>	<u>2024~2033</u>

Due to the unstable economic environment recovery, the realizability of tax assets of the tax losses, which amounted to \$4,557,153, is doubtful. Therefore, the Group has recognized the partial tax losses as deferred tax assets. If the sales grow continuously, the Group would recognize the aforementioned tax losses in the future and generate the additional tax benefits.

3. Income Tax approval

The Company's income tax returns for the years through 2020 have been assessed and approved by the Tax Authority.

4. Profit-seeking enterprise income tax administrative remedies

The Group adopted the transfer pricing method on its income tax declaration from 2013 to 2016. However, as the calculation had a conflict with the opinion of the tax authority, the Group applied for administrative relief after paying the approved additional tax. Moreover, there was a conflict with the opinion of the tax authority regarding the payment of withholding tax about the indeterminate difference of transfer pricing from 2016; hence, The Group applied for administrative relief after paying the approved additional tax. Both of the above administrative appeals and litigation procedures were still in progress as of the reporting date.

(r) Capital and other equity

As of December 31, 2023 and 2022, the authorized capital of the Company both consisted of 3,650,000 thousand shares and both issued worth \$36,500,000, with par value of \$10 per share, and its outstanding capital both consisted of 3,587,475 thousand shares of stock. All issued shares were paid up upon issuance.

1.Capital surplus

The balances of the capital surplus were as follows:

	December 31, 2023	December 31, 2022
Share capital	\$ 2,891,959	2,891,959
Others	19,156	7,968
	\$ 2,911,115	2,899,927

In accordance with the ROC company Act, realized capital reserves can only be reclassified as share capital or distributed as cash dividends after offsetting losses. The aforementioned capital reserves include share premiums and donation gains. In accordance with the securities offering and Issuance Guidelines, the amount of capital reserve to be reclassified under share capital shall not exceed 10 percent of the actual share capital amount.

2.Retained earnings

The Company's articles of incorporation require that after-tax earnings shall first be offset against any accumulated deficit, and 10% of the rest be set aside as legal reserve. The appropriation for legal reserve is discontinued when the balance of the legal reserve equals the total authorized capital. Special reserve may be appropriated for operations or to meet regulations. The remaining earnings, if any, may be appropriated for operations according to the proposal, and the distributed dividends may not be lower than 10% of the earnings. Surplus distribution based on issuance of new shares approved by the Board of Directors should be resolved during the shareholder's meeting. In consideration of the Company's long-term operating plan, funding needs, and satisfying shareholder demand for cash flow, the Company distributes cash dividends of at least 10% of the aggregate of cash dividends and stock dividends if the distributions include cash dividend. In accordance with Article 240 of the ROC Company Act, the Company authorizes the distribution of dividends and bonuses or its legal reserve and capital reserve, according to Article 241 of the ROC Company Act, in whole or in part may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors; then such distribution shall be submitted to the shareholder's meeting.

1) Legal reserve

If the Company experienced profit for the year, the meeting of shareholders shall decide on the distribution of the statutory earnings reserve either by new shares or by cash, of up to 25 percent of the actual share capital.

2) Special reserve

In accordance with the Ruling issued by the Financial Supervisory Commission, for the contra account of other shareholders' equity incurred in the current year, a special reserve is appropriated from the current profit, plus, the amount of items other than the current profit included in the current undistributed earnings and prior period's undistributed earnings. For the amount of contra accounts in other shareholders' equity accumulated in the prior period, a special reserve which was appropriated from the prior period's undistributed earnings can no longer be allocated. When the debit balance of any of the contra account in other shareholders' equity is reversed, the related special reserve can also be reversed. The subsequent reversals of the contra accounts in other shareholders' equity shall qualify for any additional distributions.

3) Earnings Distribution

1) Determining the fair value of equity instruments granted

AIMobile Co. Ltd adopted the Black-Scholes Model to calculate the fair value of the stock option at grant date, and the assumptions adopted in this valuation model were as follows:

	<u>2023</u>
	<u>Employee Stock Option Plan</u>
Fair value at grant date	2.28 / 2.77 / 3.29
Share price at grant date	10.4
Exercise price	10

(x) Financial instruments

1. Credit risks

1) Credit risks exposure

The carrying amounts of financial assets and contract assets represented the maximum credit risk exposure of the Group.

2) Concentration of credit risk

Implicit credit risk of the Group is inherent in its cash and accounts receivable. The cash is deposited in different financial institutions. The Group manages the credit risk exposure with each of these financial institutions and believes that cash do not have a significant credit risk concentration.

The major customers of the Group are centralized in the high-tech computer industry. To minimize credit risk, the Group periodically evaluates the Group's financial positions and the possibility of collecting trade receivables.

2) Sensitivity analysis

The Group's exposure to foreign currency risks arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, other receivables, loans and borrowings, accounts payable and other payables that are denominated in foreign currency. A 0.5% depreciation or appreciation of the functional currency against all the non-functional currency as of December 31, 2023 and 2022 would have increased or decreased the net profit after tax by \$109,250 and \$158,504, respectively. The analysis is performed on the same basis for both periods.

3) Foreign exchange gain and loss on monetary items

Since the Group has many kinds of functional currency, the information on foreign exchange gains (losses) on monetary items is disclosed by total amount. For the years ended December 31, 2023 and 2022, the foreign exchange gains (losses), including realized and unrealized, amounted to \$220,623 and \$667,898, respectively.

4. Interest rate analysis

Please refer to the notes on liquidity risk management and interest rate exposure of the Group's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to interest rates risk on the reporting date. Regarding liabilities with variable interest rates, the analysis is based on the assumption that the amount of liabilities outstanding at the reporting date was outstanding throughout the year.

If the interest rate had increased or decreased by 0.25%, the Group's net income would have decreased or increased by \$98,780 and \$122,574 for the years ended December 31, 2023 and 2022, respectively, with all other variable factors remaining constant. This is mainly due to the Group's borrowing at variable rates.

5. Fair value of financial instruments

1) Fair value hierarchy

The Group uses the observable market data to evaluate its assets and liabilities. The different inputs of levels of fair value hierarchy in determination of fair value are as follows:

- Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Financial assets and liabilities at fair value through profit or loss and financial assets at fair value through other comprehensive income is measured on a recurring basis. However, for financial instruments not measured at fair value whose carrying amount is estimated reasonably close to the fair value, and for equity investments that has no quoted prices in the active markets and whose fair value cannot be reliably measured, the disclosure of their fair value information is not required:

2) Valuation techniques and assumptions for financial instruments measured at fair value:

The fair value of financial assets and liabilities was decided in accordance with the solutions as follows:

(2.1) Non-derivative financial instruments

- A. The stocks of listed companies are financial assets with standard terms which are traded in the active markets. Their fair values are based on the quoted market prices.
- B. The fair value of private equity is based on standard terms and quoted market prices.
- C. The fair value of unquoted equity instruments was estimated using the market comparable price or net asset value method. The assumption of market comparable price method was based on a comparison between the market prices of each listed company, multiplied by using the estimated price. The discount effect is adjusted due to lack of market liquidity in equity securities.
- D. The fair value of unquoted instruments was estimated using either the discounted cash flow model in which future cash flow were estimated and discounted or the fair value of the recognized assets and liabilities of the investee on the measurement day.

(2.2) Derivative financial instruments

Foreign exchange swap and forward exchange were usually evaluated in the latest forward rate.

3) Transfers between level 1 and level 2

There were no transfers between level 1 and level 2 of the fair value for the years ended December 31, 2023 and 2022.

5) Quantified information for significant unobservable inputs (Level 3) used in fair value measurement

The Group uses level 3 inputs to measure fair value through profit or loss, and fair value through other comprehensive income financial assets. Quantified information of significant unobservable inputs was as follows:

Item	Valuation Technique	Significant Non-observable Input	The Relationship between Significant Non-observable Input and Fair Value
Financial assets at fair value through profit or loss—financial instruments without an active market	Discounted Cash Flow Method	· Discounted Rate (2.80%~3.40% on December 31, 2022)	· The higher the discount rate, the lower the fair value
Financial assets at fair value through profit or loss—equity instruments investments without an active market	Comparable Listed Companies Method	· Market Multiple (1.01~2.67) · Discount due to Lack of Market liquidity (30%~50%)	· The estimated fair value would increase (decrease) if the price of earnings ratio multiple is higher (lower) and the marketability discount is lower (higher)
Financial assets at fair value through other comprehensive income—equity instruments investments without an active market	Comparable Listed Companies Method	· Market Multiple (0.60~3.84) · Discount due to Lack of Market liquidity (30%~50%)	· The estimated fair value would increase (decrease) if the price of earnings ratio multiple is higher (lower) and the marketability discount is lower (higher)
Financial assets at fair value through other comprehensive income—equity instruments investments without an active market	Net Asset Value Method	· Net Asset Value	· Not applicable

6) Sensitivity analysis for fair values of financial instruments using Level 3 Inputs

The Group's fair value measurement on financial instruments is reasonable. However, the measurement would differ if different valuation models or valuation parameters are used. For financial instruments using level 3 inputs, if the valuation parameters are changed, the impact on net income or loss and other comprehensive income or loss will be as follows:

	Input	Variation	Impact on Fair Value Change on Net income or loss		Impact on Fair Value Change on Other Comprehensive income or loss	
			Favorable Change	Unfavorable Change	Favorable Change	Unfavorable Change
December 31, 2023						
Financial assets at fair value through profit or loss

Financial assets at fair value through other comprehensive income						
Equity instruments without an active market	Market Multiple	0.5%	-	-	19,569	(19,569)

The favorable change and unfavorable change refer to the fluctuation of fair value. The fair value is calculated based on the different levels of unobservable inputs. The table above shows the impact on single input. Therefore, the relations and variations between inputs are not considered.

6. Offsetting financial assets and financial liabilities

The Group has financial instrument transactions, applicable to the International Financial Reporting Standards Sections 42 NO. 32 approved by the FSC, which required for offsetting. Financial assets and liabilities relating those transactions are recognized in the net amount of the balance sheets.

The Group also performs transactions not compliance with offsetting term of statement, but the Group has an exercisable master netting arrangement or similar agreement in place with its counterparties, and both parties reach a consensus regarding net settlement. The aforesaid exercisable master netting arrangement or similar agreement can be net settled after offsetting the financial assets and financial liabilities. Otherwise, the transaction can be settled at the total amount. In the event of default involving one of the parties, the other party can have the transaction net settled.

The following tables present the aforesaid offsetting financial assets and financial liabilities.

(y) Financial risk management

1. Overview

The Group have exposures to the following risks from its financial instruments:

- 1) credit risk
- 2) liquidity risk
- 3) market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosures about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying consolidated financial statements.

2. Risk management framework

The group are exposed to credit risk, market risk, operating risk and liquidity risk due to its operating activities. To lower the latent unfavorable effects of changing market to the Group's financial performance, the Group have made efforts in identifying and evaluating the risks and avoiding the uncertainty of the market through derivative financial instruments.

The Board of Directors has the overall responsibility for the establishment and oversight of the Group's risk management framework. The financial units follows the risk management policies, and report the operating status to the Board of Directors regularly. The internal auditors perform regular reviews by taking risk management control procedures and report to the Board of Directors.

3. Credit risk

Please refer to Note (6)(x) for the analysis of credit risk of cash, cash equivalent and accounts receivable.

4. Liquidity risk

Liquidity risk is a risk that the Group is unable to meet the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as much as possible, that it always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group use actual cost to estimate the cost of its products and services to better assist the Group's monitoring on the cash flow and optimizing the return on investment. As of December 31, 2023, the capital and working funds of the Group are sufficient to meet its entire contractual obligation; therefore, the management is not expecting any significant issue on liquidity risk. As of December 31, 2023 and 2022, the Group's unused credit line were amounted to \$103,602,121 and \$73,159,482, respectively.

5. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rate, and equity prices which will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing the return.

The Group buys and sells derivatives, and also incurs financial liabilities, in order to manage market risks. All such transactions are carried out within the guidelines set by the Group.

1) Currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Group's entities, primarily the New Taiwan Dollars (TWD), US Dollars (USD), Czech Koruna (CZK), Japanese Yen (JPY) and China Yuan (CNY). The currencies used in these transactions are denominated in TWD, USD, JPY and CNY.

The Group often uses the principle of natural hedging as its basis, and proceed supplemented by derivative instruments for hedging exchange rate risk.

The interest is denominated in the same currency as borrowings. Generally, borrowings are denominated in currencies that match the cash flows generated by the underlying operations of the Group. This provides an economic hedge without derivatives being entered into, and therefore, hedge accounting is not applied in these circumstances.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

2) Interest rate risk

The Group's interest rate risk arises from short-term and long-term borrowings bearing floating interest rates. The fluctuation of the market interest rate changes the floating interest rates of the long-term borrowings, and thus affect the future cash flow. In order to decrease the effect of the market interest rate fluctuation on to the future cash flow, the Group periodically evaluates bank and currency borrowing rate to hedge the cash flow risk caused by the market interest rate fluctuation.

(z) Capital Management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of ordinary shares, additional paid-in capital, retained earnings, other equity interest and non-controlling interests of the Group. The Board of Directors monitors the return on capital as well as the level of dividends to ordinary shareholders.
